Any Comments:

The Syllabus is well designed and is very much aligned to the needs of the industry. It also equips students with knowledge of Computers and various accounts, quantitative and analytical tools used in decision making. The curriculum followed is contemporary in nature and emphasizes on issues related to current relevance.

However more emphasis should be given on practical knowledge like Tally ERP.9, Real time Banking, Invoicing and Basic knowledge of Share market etc. So that it will empower and enable students to take up responsibility positions in Business firms and other sectors.

Fundamentals of Management: A good and an important course to start the first semester for management student.

Business Communications: Communication is the most important course for a management student.

Macro Economics: Before this course, students should be taught the base of micro economics so that the macro part will be crystal clear.

Principles of marketing: Another important course for a management student, there should be more practicals.

Business accounting: All the basic principles of accounting will be clear in this course.

There should be gap during semester examination. The process of learning is very good. But need more time to perform the practicals. And want to visit histopathology Lab to perform the tissue processing steps.

ALUMNI FEEDBACK ON SYLLABUS

2018-2019

CENTURION UNIVERSITY OF TECHNOLOGY AND MANAGEMENT ODISHA

Dear Alumni,

It gives us immense pleasure to reconnect with you. We hope you have been doing exceedingly well in your career. We solicit your feedback on attainment of the student outcomes (the knowledge, skills, attitude that you developed during the course of study at Centurion University and subsequent work experience) of UG/PG program. Please answer the following questions on the scale of 1 to 5 where 1 indicates little satisfaction, and 5 indicates higher satisfaction.

Please mark a tick '✓' in the appropriate cell

Sl.No	Suggestions	5	4	3	2	1
1	The current syllabus is adequately updated from the one followed during your course of study.		✓			
2	Does the curriculum has the ability to find solutions to real life/practical problems in industry through the use of technical knowledge?			✓		
3	Does the curriculum have reasonable practical and laboratory skills for analysis and design?		✓			
4	How do you rate the curriculum with respect to professional ethics and behavior?	✓				
5	How do you rate the curriculum in written and oral communication abilities?			✓		
6	Does the curriculum has ability and will to engage in a process of continuous learning to meet the current job requirements?			✓		

7	Overall satisfaction for the current program in meeting its educational objectives.	✓

Any Comments:

The Central Lab is very good. Need more instruments for better lab experiments. Require +ve sample for better study. All practical sessions were very good.
