

Activities/remedial measures for slow learners

The University has a structured assessment system to identify slow learners/performers in each programme considering previous academic performance(10th/+2/graduate marks/grades and a baseline assessment related to basic courses related to programmes.

Bridge courses; Based on this assessment a bridge course is offered to low performers before commencement of regular classes and sometimes along with courses also. The faculty also keep tracking the slow learners during the course progress and plan for extra classes to clarify doubts.

Peers learning; These students are also made a group with fast learners for group studies/assignments/project work to have peers learning.

Mentoring; The faculty mentor while interacting with the students, identifies introvert students and informs their issues to concerned course faculty to take special attention.

Additional Lab classes; HoD assigns additional lab classes for slow learners to get personal attention and guidance to do experiments/handling equipment/learning software/tools etc.

Back paper issues; Students fail to clear a back papers are given enough time to prepare for the next examination. During this period remedial classes are conducted for back papers to clarify their doubts and solve previous question papers as a practice.

Career specific training; All students are assessed aptitude, reasoning and verbal through online platform MyPerfectice. Classes are conducted to give conceptual understandings and clarify doubts while students do self practice in MyPerfectice. The students are given a target to reach a minimum of level 4. Similarly all students are taught English as a language for oral/written communication through IELTS. Students are done handholding and practice sessions to reach a 6.5 score, which has been set as a benchmark for employability index.

NOTICE

Sub. : Remedial classes

This is to inform you all that remedial classes are arranged for B.Sc and M.Sc students having backlogs. Hence, those students are advised to contact their subject teachers and attend the classes. The Faculty Members are hereby informed to conduct the remedial classes of both B.Sc. and M.Sc. students.

Further, students may note that:

1. It is mandatory for all recommended students to attend these remedial classes.
2. Attendance in these classes will be considered towards calculations of class attendance.
3. Classes will be held as per the time table.
