## Venue:

**Centurion University Bhubaneswar Campus**

At – Ramchandrapur P.O. - Jatni, Bhubaneswar Dist: Khurda – 752050 Odisha, India

## **ABOUT THE UNIVERSITY**

Centurion University of Technology & Management (CUTM), a private state University in Odisha, established through an act of State Legislative Assembly. The University is accredited by NAAC “A” grade, and accorded UGC 12 B status. The core objective of CUTM is shaping lives, empowering communities and creating wealth and livelihood opportunities at the bottom of the pyramid. Its offerings include education, training, consulting and action research projects, particularly in Left Wing Extremism (LWE) affected districts of south Odisha and north coastal Andhra Pradesh. It has campuses at Paralakhemundi, Bhubaneswar, Bolangir and Rayagada in Odisha.

The University is organized in the form of Schools: M. S. Swaminathan School of Agriculture; School of Applied Sciences, School of Design; School of Engineering & Technology; School of Humanities and Social Sciences; School of Management; School of Media and Communication; School of Pharmacy and Life Sciences, School of Paramedics and Allied Health Sciences; School of Vocational Education & Training; and the Institute of Knowledge Societies. It has about 10000 students in graduate and postgraduate programs, and 25000 students in vocational programs. Its well-equipped laboratories, workshops, library, sports and health facilities are housed in about 115 acres of land and 1 million sqft of built-up area. It has residential facility for 80% students and 50% faculty and staff.

## **ABOUT THE PROGRAMME**

Universities are facing an environment that is characterised by social and economic sector organisations with low productivity, wiping out of numerous traditional jobs, increasing urbanization, closer linkage with global market, growing environmental degradation and social friction from disparity and unsustainability, and large number of young and unemployed with difficult-to-meet aspirations. Unfortunately, mainstream in higher education institutions have failed in required entrepreneurship and employable skill development in the country.

In today's era, learning has to be interdisciplinary and cross cultural. Learning from listening and seeing has to be by doing and discovery. The learning must be beneficial to the immediate society. Context specific, problem solving and experiential learning require different approach and different skill set from the faculty point of view. Therefore, the question is, how many faculty members have the knowledge and skill to impart such learning and do they have the methodology to teach their students? Towards this end, the capacity building programme on the theme of “**Experts in Team**” has been designed as a participative, interdisciplinary and realistic tool for teaching and learning.

Centurion University of Technology and Management has collaborated with Norwegian University of Science and Technology (NTNU) to have student and faculty exchanges around a newly designed programme of sustainable entrepreneurship, funded by UTFORSK. A host of research will also be conducted around the design and delivery of this programme. A key component which is already

implemented at NTNU is the 'Experts in Team program', to teach interdisciplinary student team by interdisciplinary teachers on a project of socio-economic significance. An attempt is being made to implement the same at CUTM. Keeping this in view, the School of Management, Centurion University of Technology and Management is planning to organise a twelve days Capacity Building Programme (CBP) on the theme, "Experts in Team"

### **SPECIFIC OBJECTIVES OF THE PROGRAMME**

The broad aim of this programme is to give an exposure to young faculty in all disciplines to the latest pedagogical tool such as *Experts in Team* to enhance their general methodological and delivery skills.

### **KEY HIGHLIGHTS OF THE PROGRAMME**

The Capacity Building program strives to highlight some emerging methodological issues. The key learning areas are:

- Interdisciplinary cooperative skills
- Team building and team work skills
- Relevant and context specific learning
- Experience based learning
- Creativity
- Problem solving
- Stakeholder analysis
- Culture and inter-cultural issues
- Conflict management
- Leadership skills
- Observation
- Empathy
- Analytical skills
- Project development and management skills
- Professional Report Writing etc.

### **PARTICIPANTS**

The number of seats for the Capacity Building Programme (CBP) is restricted to thirty (30) candidates from Social Science disciplines, out of which ten (10) from Bhubaneswar/Khorda, ten (10) from Odisha, and rest of the ten (10) participants are to be selected from outside the state as per the ICSSR guidelines. Faculty members of Economics/ Commerce/ Management/Psychology/Sociology/Political Science and/or any allied subjects of Social Science are eligible for this programme.

## **LEARNING OUTCOME OF THE PROGRAMME**

After the completion of the capacity building programme the participants are expected to appreciate the utility and power of a learning tool such as experts in team. They would be better equipped to guide their students towards more meaningful learning. The participants should feel more confident and empowered as individuals and course facilitators after undergoing this programme.

## **ACCOMMODATION & TRAVEL ALLOWANCE**

Accommodation will be provided only to outstation participants in University Guest House/Hotels on sharing basis from 1<sup>st</sup> February, 2019 (evening) to February 14, 2019 (morning).
