(Date: 16th August 2019)

About the Guest Lecturer

Dr. Sunil Nanda is working as a Director at JS Water Energy Life. He has more than 15-year experience in Wastewater treatment and Nano-technology. JS Water Energy Life Co is one of the Leading Nanotechnology Solutions for Tea Plantations, Agriculture, Poultry in India.

Objective:

- To aware the attendees about recent innovations in nan- technology
- Giving an insight into the process and mechanism of nano tech engineered micronutrient solution to promote zoo plankton availability
- Discuss the Case Studies of aqua farmers using this technology

Outcome:

The attendees understood the importance of nanotechnology. Nanotechnology has a significant role to play in the improvement of the efficiency and the environmental impact of this industry. Given this perspective, the purpose was to review the current situation of nanotechnology in the field of aquaculture and fisheries, emphasizing not only in current applications, and future prospects, but also in the ethical and governance aspects associated with this topic.
