Logistics and Warehousing at Jatni Campus.

Date	: 13-02-2019
Resource Person	: Dr. Prasanta K. Mohanty
No. of Participants	: 26

About the resource person

A graduate in Electronics and Communication Engineering. Done MBA and Ph.D. in the area of Supply Chain Management. The academic interest lies in teaching courses; Project Management, Supply Chain Design, and Service Operation Management. The research interests are in Service Optimisation, Vendor Management Inventory, and Disruptive Innovations. Worked with many organizations viz; L & T Infotech, IMIS, ORETUS, Munjal University(Visiting), Ravenshaw University(Visiting) and currently working in Centurion University, since 2011.

About the Programme

Both warehousing and logistics fulfill functions within the supply chain of a business. On the one hand, warehousing focuses on the safe storage of goods within a building, whilst logistics is the functional aspect of the storage and delivery of goods stored in a warehouse

Objective:

This programmed is aimed at creating awareness on the desirability of logistic and warehousing concepts for the Indian Industry. The focus will be on integrated logistics and warehousing systems. The integration of the physical (material flow) and virtual (information flow) value chain across multiple organizations will be highlighted. The emphasis will be on cross-functional approaches to supply chain management, including marketing, sales, research & development, finance and accounting, manufacturing/operations, and information technology.

Outcomes:

- The participants will get a chance to rethink the way the organization integrates logistics, production and warehousing in the globally competitive economy.
