Appearition Instructional Workshop on
Experience Management

Date: 25th September, 2020
Resource person: Mr. Vivek Aiyer
No. of Participants: 33

This Instructional Workshop on Appearition Platform was conducted on 25 September 2020. The workshop displayed some of the best features of different online platforms for management. The proposed application provides a dashboard interface to the user to upload models and content subjected to different file formats (Media, game engine asset bundles, 3d models) which can be then called back from the SDK tool of specific application to Unity Engine or supported Game engines.

- Real time api call from web module to build application
- Pre Integrated AR/VR Sdk
- Web deployment online customization panel
- 3d web tool

Student and Teacher Panel
- The application provides University to create separate Profiles with authorization
- In-group publishing of content
- Easy content development and publishing
- Accessible pre-existing asset bundles
- Realtime deployment and access

Developer Independence
- Developer can create and publish from inside the application
- Deployment of application without using external APIs
- Customized api deployment support
- Open Marketplace for tools and plugins to monetize and customer outreach
- Independent libraries for web calls
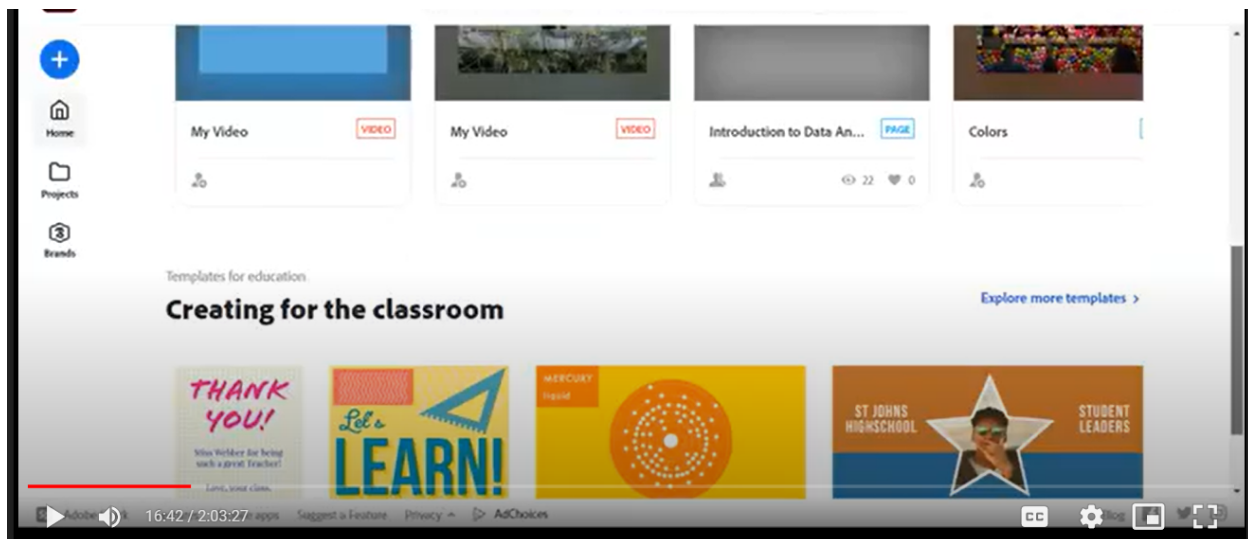

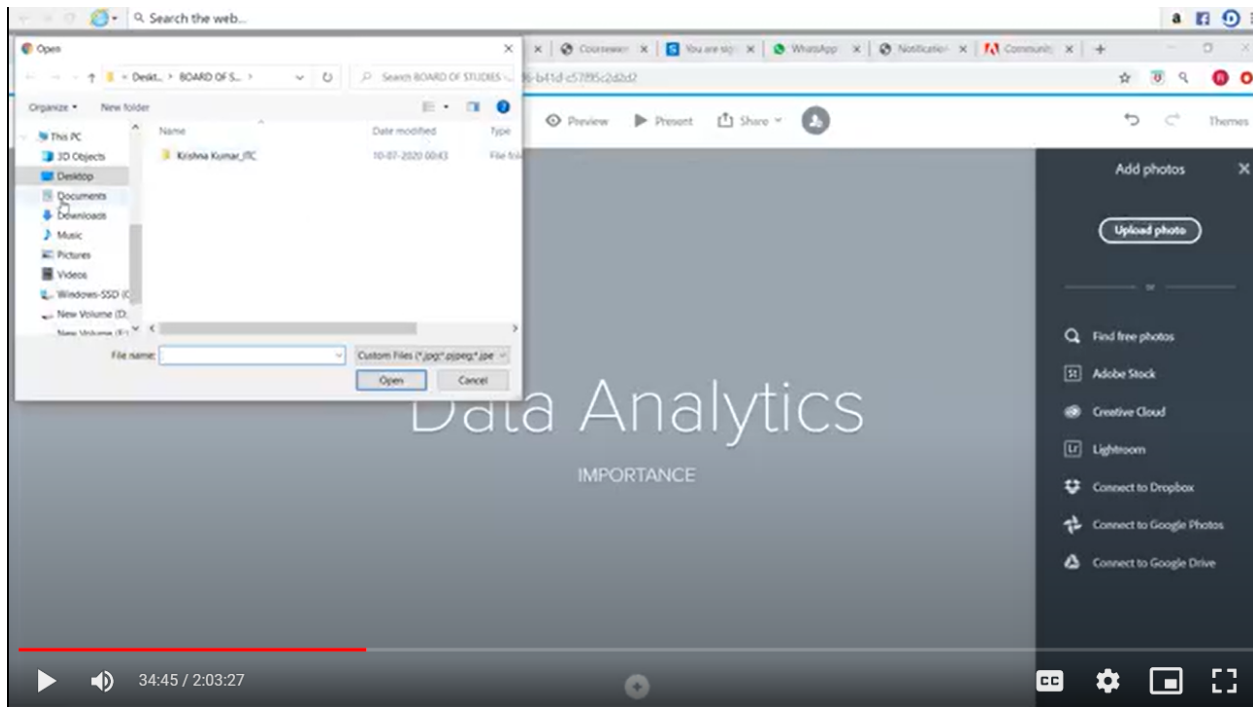

Learning Experience
- The proposed system promises an immersive learning experience
- LMS integration support
- Response and data collection capacity
- Audio visual learning
- Interactive and self-content learning option

Outcomes:
- Students can use the platform to create content and publish
- Create content for more complex to understand concepts
- Content and related IP will belong to us

The application is also said to be capable of performing multiple tasks which will be demonstrated in the upcoming workshop.

- Multiplayer Learning (Many users can collaborate on a single model)
- Accessibility tools
- Web VR deployment (simulation/ models)
- Accessibility to students in remote areas offline and online.
