Dear Sir

Sir I'm facing issues regarding registration. I'm unable to register due to my dues. My visa expired recently and I was told to go back to my home country to apply and come back. The amount that I was supposed to be paying for my fees is what my parents are using to buy a ticket for me to go back home. I tried applying here in India but my visa application was rejected, they told me to go back to my country and apply. Things are very tight now back home because there's lockdown and my parents are not working now so can you please allow me to register then I'll pay the fees in installments till I finish all Sir.. Please help me Sir, the ticket is costly since flights are limited now in India due to Covid. If I wasn't asked to go back to fix my visa issue I could have paid the required I'm kindly looking forward to your help.

Regards

Dear Sir

Sir I've mailed to inform you that I have not gotten my visa yet.I was told to wait and they will call me if it's ready so I am still in Zimbabwe and waiting.
Sharon Angella Mudinzwa

Dear Sir
Sharon Angella Mudinzwa here, I am still stuck in my home country, I don't know if I'll be able to come back soon or not because my visa issue is still pending. Sir I wanted your assistance regarding some subjects I can do online now that do not require practicals so that I can the credits will be increasing then when I manage to come back I can do the projects and practicals. I don't know of there's any way you can assist me Sir.

Regards

Dear respected Sir

I've gotten the list of the subjects I can do that do not require practicals and also I've filled on the spreadsheet all the subjects I did previously, about the fees I cannot pay now because I cannot do a transfer from my country directly to the school account due to some economic crisis in my country. The money will take very long to reflect so the best way is to pay later in cash. My parents even send me the money via western union when I'm in India. Below is the spreadsheet of the credits and also the subjects I think and heard my friends say they do not have practicals. If there's more kindly assist

1. Advance metrology
2. Theory of failure using FEA
3. Discreet mathematics
4. Optimisation technique
