**Management, Odisha PREFACE**

It is our profound pleasure and pride, as the time is now ripe, to publish a text book of Environmental Studies which has been covered all the modules of Ability Enhancement Compulsory Course of UGC syllabus. The main driving force behind writing this book came from the situation where, a need was felt to present a single standard textbook on Environmental studies to the graduating students in absence of Multiple choice questions for their online examinations as well as for other competitive examinations they were forced to refer other plentifully available books on Environmental studies but there which is negligible number of review questions in them. Moreover, Environmental Studies due to its great importance, is now taught in all the Universities of the country in undergraduate classes of all Sciences and Technology programmes. Students also face questions related to
