Report on
Life Skill Development (LSD) –II (SoAS)
07 February 2020

A workshop on Life Skill Development had been organized on 07th February 2020 by the department of English, School of Management for the students of Centurion University of Technology and Management to train them on the importance and values concerning life skills. The event was attended by 350 participants from different disciplines and was coordinated by Dr. Prajna Pani, Professor of English.

It has been realized that a student or even a professional can come across aptitude, reasoning tests at some point which may include many areas of assessment such as verbal reasoning, numerical reasoning, abstract reasoning and other such abilities. These tests have become quite common these days especially for students who are confused and undecided about their careers.

Objectives of the workshop:

The workshop was need based and emphasized in inculcating the following attributes among the participants:

6. Perfect Choice when Students are unsure of their future

Aptitude tests are perfect for students or even professionals who aren't sure or confused about their future or present career choices. These generate ideas and options for student's career after analyzing the skills and interests and determine a job that is best suited. Sometimes, these tests also generate job ideas that they hadn't even considered before.

7. Better Knowledge of ones Strengths and weaknesses

Aptitude tests give students a better understanding of themselves. They are designed to reveal students strengths and weaknesses and give a better understanding of their personality. This is important for professional development. It may also highlight student's hidden talents.

8. Educational and career advice

Once students have a better understanding of their strengths and weaknesses, it becomes easy for them to find out what career or job is best suited for them. This helps the students to know where they stand in the job market and also provide a platform to develop their skills with a variety of job opportunities.

9. Difference between interest and aptitude

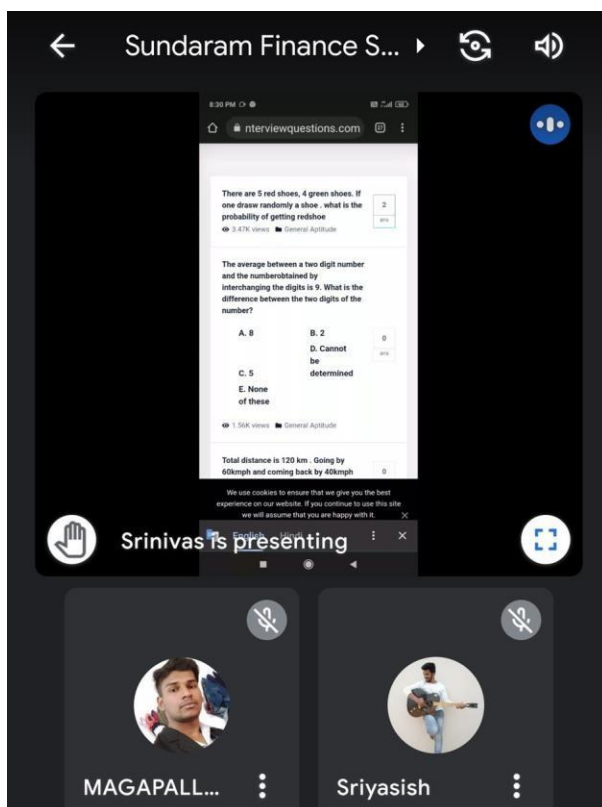

Many students regret choosing a career based on their interest. It is important to know that there is a difference between interest and aptitude. Just because they are interested in a particular field does not necessarily mean that they have the required aptitude or potential for the same. Hence, it is important to select a career that incorporates both their interest as well as their aptitude so that they can achieve success and grow.

10. Increase the chances of success

Once students are aware of their interest and potential, they can easily make an informed decision. They can acquire the necessary skills for their job and develop them by appropriate training. This will, in turn, increase their chances of success at the chosen career or job.

Way Forward:

Once the students figure out the best-suited career and develop the skills, it becomes easy to predict the potential for success. Such students become successful in future and aptitude tests serve as the ideal parameters to judge the ability of such students whether it is for promotion or entry into new jobs. It was truly a knowledge enriching workshop which prepared students to develop the necessary competence required to tread on in the journey of their life.

Q & A session during the session conducted on 7th February 2020
