“If we spoke a different language, we would perceive a somewhat different world. Because the limits of my language mean the limits of my world.” By- Ludwig Wittgenstein

Language learning allows for critical thinking skills and problem solving when deciphering a language’s vocabulary, grammar, sentence structure, meaning, sounds, and orthography.

The culture and traditions of Japan are unique because of its island-nation geography. Understanding the Japanese language will open eyes to Japanese history, martial arts, entertainment, culture and fashion. Learning Japanese will help to appreciate own culture and language as it improves communication and cognitive skills.

In order to bring students interest in different language and culture a workshop/event was conducted by Institute of Japanese Language & Culture at Centurion University of Technology and Management, Bhubaneswar Campus on 6<sup>th</sup> August 2019 between 2 and 5 PM.

Students were divided into six groups and asked to create power point presentations on Japanese language and culture. All the six groups participated in the event delivered their presentation. They also participated in Japanese craft and origami making session.

All the presentations were reviewed and evaluated by two language experts. The evaluation was based on students’ language accuracy and creativity.

The following page provides a few snapshots of the event.
