**A REPORT ON
NAME OF THE EVENT:
DISASTER MANAGEMENT
TOTAL NUMBER OF PARTICIPANTS: 42
ACADEMIC YEAR: 2018-19
DATE: 26.04.2019**

The programme intended to provide students an exposure to disasters, their significance, types & Comprehensive understanding on the concurrence of Disasters and its management. Furthermore, the programme envisaged to ensure that students begin to understand the relationship between vulnerability, disasters, disaster prevention, risk reduction and the basic understanding of the research methodology for risk reduction measures.

This programme helps to give proper idea regarding country's frame work as it is the poor and the underprivileged who are the worst affected on account of calamities / disaster as a result institutional and policy mechanisms are carried out for affected people for carrying out responses, relief and rehabilitation has been well established. In order to further institutionalize the new approaches, the Government of India have decided to enunciate a national policy on disaster management.

The participants of the programme were able to equip themselves with knowledge, concepts, and principles, skills pertaining to Planning, Organizing, Decision-making and Problem-solving methods for Disaster Management. Structural and non-structural elements of risk reduction and climate change adaptation were also part of the programme.

Layout of congested buildings prone to Disaster on 26-04-2019

Layout of congested buildings prone to Disaster on 26-04-2019

At the end of the programme students acquired the basic knowledge and information on DRR and CC and are well prepared to respond to such hazards and able to disseminate the acquired knowledge, skills and techniques with the people living in and around them.
