**Research & Proposal Making**  
**Resource Person: Dr. Sushanth Kumar Biswal**  
**Date: 25.08.2018**  
**Number of participants: 68**

Dr. Susanta Kumar Biswal is currently holding the position of Professor (Chemistry) and held the position of Dean, School of Applied Sciences, Centurion University of Technology and Management, Odisha, India from July, 2016. He received his Ph.D. in Chemistry in the year 2003 from Utkal University, Odisha, India. He has 20+ years of teaching experience in various branches of chemistry in different Technical and Non-Technical degree colleges/ Universities and 17 years of Post Ph.D. research Experience. He has 18 years of administrative experience in the capacity of HoD, Principal and Dean. He is fellow and Life member/Patron member of several professional bodies such as Institution of Chemists (India), International Congress of Chemistry & Environment, International Society of Biotechnology, society of polymer science India, Association of Separation Scientists and Technologists and Mining, Minerals, Metals and Materials Society of India etc.

**About the Workshop:**

The objectives of the research proposal are to help the researcher to define the contents and to plan and execute a research project, and to inform potential collaborators and supporters about the topic. The proposal that is produced during the process can be submitted to agencies for possible funding. The workshop was very informative and the participants learned that In a research proposal, the goal is to present the author's plan for the research they intend to conduct. In some cases, part of this goal is to secure funding for said research. In others, it's to have the research approved by the author's supervisor or department so they can move forward with it. In some cases, a research proposal is a required part of a graduate school application. In every one of these circumstances, research proposals follow the same structure. In a research proposal, the author demonstrates how and why their research is relevant to their field. They demonstrate that the work is necessary to the following:

- Filling a gap in the existing body of research on their subject
- Underscoring existing research on their subject, and/or
- Adding new, original knowledge to the academic community's existing understanding of their subject.
- The program ended with a vote of thanks from the Registrar CUTM followed by a grand lunch.

The banner features a dark blue header with the Centurion University logo on the left and a decorative white wave on the right. The main text is centered on a white background.
