## **SDP on INTERACTION**

Date: 27-12-2018

Organized by

School of Management

Centurion University of Technology and Management

No. of Participants: 17

### **About the programme:**

The interaction is an initiative by the HR Department in association with the School of Management. The programme aims at integrating new employees into the system. The new employees get an understanding of the functionalities of the University and its education model. During the programme, new employees are exposed to all necessary information on the benefits, entitlements, support services, opportunities, events and activities available as members of the university staff.

### **Objective:**

- To make employees aware of the policies and procedures of the university
- To make employees understand their roles, responsibilities and authorities
- To highlight the University's strategic context and culture of inclusivity, diversity and skill-integrated higher education model
- To build strong relationships with faculty, advisors and peers
- To make aware of the code of conduct, the role of various advisory committee and functionalities of ERP system

### **Outcome:**

The interaction provides a welcome address by the senior management team and opportunity to network with new colleagues. The programme enables the participants

- To display confidence and successfully transition into a new academic environment
- Utilize the available resources and facilities of the university
- Establish favourable acquaintance with their peers, faculties and the institute as a whole
- Attach values and behaviours with the practices of the institutional activities
