Report of FDP ON

Online Classwork

Date: 24-03-2020

Resource Person

Mr. K.V. Kalyan, Dept. CSE, CUTM

No. of Participants:267

Resource Person:

He is currently working as an Assistant Professor in the Department of Computer Science Engineering at Centurion University of Technology and Management, Andhra Pradesh.

About the session:

The session started with a small introduction to the Exam Management system software. An examination management system is a software that's been developed to manage the entire exam process. It covers all the activities that are related to examination management, right from receiving enrolment and examination forms, to the processing of exams, printing, distribution, and statistical reports.

Online Examination Management System Modules

- ADMIN PANEL – It involves the login part of the admin, who can create the paper and save all the details in the database server and can have access to all the details as well as the answers submitted by the students. Only the admin can authenticate all the A-to-Z things involved in the database server and can have access to change them even after once the paper is designed or released.
- STUDENT PANEL– This panel involves a student zone where students can enter into their account by the id and password given to them and can access all the questions and give their answers as per their reliability.
- ONLINE QUIZ PATTERN– It includes the designing part of the quiz system and the front-end part in which the looks, design, questions, details everything will be added.

Objective:
- Integrate the activities of the Office of the Controller of the Examinations
- Streamline process and improve efficiency
- Decreases delay and cost
- Reports for faster and more accurate decision making
- Better service to students and staff
