Project-based Learning

Date: 29-05-2021

Resource Person

Prof. D. Narshimha Rao

No. of Participants: 72

About the session:

Project-based learning (PBL) or project-based instruction is an instructional approach designed to give students the opportunity to develop knowledge and skills through engaging projects set around challenges and problems they may face in the real world. Project-based learning engages students in deep thinking while connecting their learning in the classroom to the world around them.

Students work on a project over an extended period of time – from a week up to a semester – that engages them in solving a real-world problem or answering a complex question. They demonstrate their knowledge and skills by creating a public product or presentation for a real audience.

As a result, students develop deep content knowledge as well as critical thinking, collaboration, creativity, and communication skills. Project Based Learning unleashes contagious, creative energy among students and teachers.

The key Takeaways:

1. Creating foundations for PBL
2. Getting started with PBL design
3. Managing the PBL process
4. Using formative and summative assessment during PBL
