

# CERTIFICATE OF COMPLETION

## Elite Solar Inspectors Training

**A PV Rooftop Quality and Performance Initiative  
Virtual Training Programme for DISCOMs and EPCs**

**Debashree Debadatta Behera**

successfully completed the above 2 day virtual training  
from 25 October 2021 to 26 October 2021.

The virtual training covered the following topics:

- 5-hours E-Learning Course on “PV Technology” covering the following topics:
  - PV cell and module characteristics and behaviour in the field
  - Fundamentals on inverter, storage and balance of system components
- Six 1-hour virtual classes covering the following topics:
  - Electrical faults and protection measures
  - Grid interconnection principles and guidelines
  - The 7 main faults in PV rooftop systems and how to avoid them
  - Start-up check and impact on future performance (IEC 62446)
  - Start-up measurements using standard instruments
  - Troubleshooting and use of special instruments
