

The development of an effective curriculum in Centurion University is a multi-step, dynamic process that follows 360-degree approach. The process starts from evaluating the existing curriculum in terms of its relevance in present context and achieving desired programme objectives like the need of employers/ requirements of higher education/ entrepreneurship. Curriculum is designed and developed to ensure excellence in the quality in a systematic manner that provides a learner centric education to achieve the three specific objectives: **Employment, Higher Education and Entrepreneurship**
