

4.1.3 Availability of general campus facilities and overall ambience

The campuses of the University have been thoughtfully designed to ensure that they offer the best in class education infrastructure and living conditions for the students, faculty and staff besides having a transformative impact on the communities around the campuses.

Further in order to attract the best talent (both faculty and non-faculty), it is essential that facilities such as connectivity (electronic and physical), medical, residential and recreational are all available within or close proximity. Each campus offers a balanced lifestyle in a tranquil environment enabling the inhabitants to focus on realizing their potential.

Some of the key features/general facilities are listed below:

1. **Gated Campus and Security**
2. **Residential Facilities Staff and Faculty**
3. **Residential Facilities for Students**
4. **Guest House**
5. **Mess/Dining Halls**
6. **Mini-Market and Food & Beverages Facilities**
7. **Transportation (cars, buses, mini-vans and other vehicles such as pick-up trucks)**
8. **Banking/ATMs**
9. **Farms and Fresh Produce**
10. **Tribal Museum & Family on Campus** in Parlakhemundi.
11. **Clinic & Medical Facilities:** Both the campuses have basic medical facilities as well as dedicated ambulances for taking care of any exigency. More recently, both campuses have created quarantine zones as well as hospital grade rooms (medical beds, drips, oxygen cylinders etc.) as part of its effort to fight the pandemic.
