

6.2.1 The institutional Strategic plan is effectively deployed.

Response:

Centurion University as a Skill University has designed & delivered a comprehensive skill integrated (based on NSQF competency levels) higher education. It integrates hands on knowledge, practice linked pedagogy and experiential learning in an inclusive environment with a focus in rural & remote areas. The University has succeeded in institutionalizing the unique model that blends Technical Vocational Education & Training (TVET) Qualifications with Skill Development.

The University has recreated a live production environment in its campuses where students eventually design, simulate, test & manufacture a product (prototype & commercialise) or service with a tangible socio-economic value and this it recognises to be the best measure of the outcome of any course. It creates a robust research environment where outputs also in terms of publications, copyrights and patents are enhanced.

The University preempted the NEP and has devised a credit-based assessment & certification framework. Curriculum for skill based courses is aligned with existing NSQF QP/NOSs & content is developed in partnership with the industry. Due to this, Centurion University has earned the first multi sector Center of Excellence of the Ministry of Skill Development & Entrepreneurship, Government of India & also the first Skill University to be notified as the Assessing & Awarding body by the MSDE, Govt of India.
