COVID- 19 Vaccination Drive at Centurion University

Centurion University has been on a mission mode to vaccinate students, staff, casual workers and community members since April 2021 but accelerated the inoculation drive since August 2021. After the 1st Wave of COVID-19 in India, the University reopened on a timely manner, for its staff members and students, subsequent to the orders issued by the State Government. All COVID prevention protocols are duly adhered by the University. In order to improve the COVID protection measures across Campuses, the University has initiated the Vaccination drive in a phased manner. Centurion aims to cover as many of COVID inoculation (1st & 2nd dose) possible to boost up the herd immunity of the populace within its Campuses, with a moto to ensure a safer and healthier working environment.

To ensure that all the stake holders are benefitted, the University has implemented Cluster vaccination approach, across its Campuses. It is piloted in four clusters at various Campuses (Bhubaneswar, Paralakhemundi, Bolangir, Rayagada). For the timely administration of the second shots, the University also facilitates periodical Vaccination drives for local communities around the campuses.

In Bhubaneswar Campus, Five phases of vaccination have been driven. The schedule for vaccination was intimated to all through emails and omnibus announcements. The vaccination drive was organized in collaboration with the Government Community Hospital, Jatni (Bhubaneswar).
