

Name: Subhasmita Mallik

Regd no: 230506232004

Bio/ Short introduction: I am currently pursuing a PhD at Centurion University of Technology and Management, specializing in the field of life sciences. My research primarily focuses on microbial genomics approaches, with a specific emphasis on the phytochemical composition of medicinal plants and their potential against Superbugs. I aim to examine advanced genomic and bioinformatics techniques to develop strategies that can help tackle these issues effectively. In my leisure time, I enjoy indulging my passion for nature by planting and gardening, which provides me with a relaxing and creative outlet for self-expression.

Research interest: phytochemical extraction, Bioinformatics, Microbial biotechnology, Gene Sequencing.

Supervisor: Dr. Jatindra Nath Mohanty.
