# 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

## I. Targets

Centurion University incubated 34 startups in the year 2020, which has increase to 49 startups in the year 2021. Similarly, there is an increase of 7 crores in revenue from industries during the same time span. The University targets to double its revenue from industries by 2023.

---

## II. The Context of Centurion University

Centurion University strives to foster an innovative and enabling ecosystem. It endeavours to be self sufficient in all aspects be it mobility solutions, production of energy or other necessities. The University`s e-vehicle manufacturing unit caters to internal need besides serving it to the community. Similarly, the transformer manufacturing unit besides engaging students in action learning caters to different elite bases including state and national governments. All this are culmination of constant research activity. The University has established lab-to-field Research Centres which provides innovative solutions and upgrades technological capabilities in agriculture, renewable energy, waste-to-wealth, engineering applications, infrastructure, data science, medical diagnostics and more.

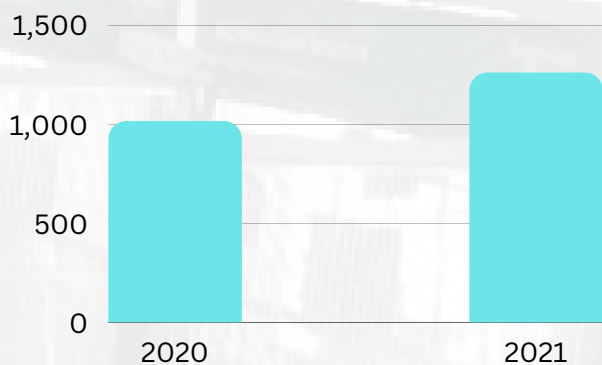

Centurion University has several spin-offs to encourage entrepreneurship and promote nano and micro enterprises. The spin-offs are in broad category of manufacturing, technical services, financial services and other variegated areas.
