

### Tracking of Women`s Application Rate, Acceptance and Graduation Rate

The University is committed to SDG 5: Gender equality and keeps monitoring the women`s application rate, entry rate, and study completion rate. The University has an in-house developed Customer Relationship Management (CRM) software.

In the year 2021-2022, the total number of women who applied was 1699 in Bachelor's including Diploma, and the number of women admitted to the University was 40% of the total women who applied which is reasoned to their ability to qualify for the University`s entrance examination and exercising choices in different courses across different University.
